# Shani Davis, 2010 Olympic Gold Medal Winner! ASEA PRODUCT USER

Posted by Shanti on February [From the Wiki](#)

Shani Davis (born August 13, 1982 in Chicago, Illinois) is an American speed skater who competes in both short track and long track speed skating.

At the [2006 Winter Olympics](#), Davis became the first black athlete to win a gold medal in an individual Winter Games sport (1,000 m) and the fifth black Winter Olympics medalist. He also won the silver in the 1,500 m. He won the all round [World All-around Championships](#) in both 2005 and 2006, after winning the silver medal in 2004, and won the [World Single Distance Championships](#) 1,500 m in both 2004 and 2008. Davis has set a total of eight [world records](#), three of them current (as of March 9, 2009): 1:06.42 in the 1,000 m, 1:41.04 in the 1,500 m, and 145.742 in the all-round [samalog](#). On January 18, 2009 he won the [World Sprint Championships](#) in [Moscow](#), which was also the site of his first World Allround Championship victory. By winning he became the 4th American to win the sprint championship, and the second male skater to have won both the Sprint and Allround in their career.

At 6' 2" (188 cm), Davis is the tallest American speed skater.<sup>[1]</sup> He currently trains at the U.S. Olympic Training Facility, The [Pettit National Ice Center](#) in [West Allis, Wisconsin](#). He is the first person to get a gold medal (at the Vancouver 2010 Winter Olympics) for Men's 1000 m two times in a row.

@@

**ASEA**® An independent lab tested the performance of a group of healthy athletes in an endurance test. The results were extraordinary. After only two weeks of **ASEA** supplementation, the athletes experienced a large increase in their VT (Ventilatory Threshold – endurance or the time it takes to hit the runner's wall), increasing their distance before this carb-burn slump on average over 12%.

That means that after only two weeks of supplementing with **ASEA** some athletes increased their power output and endurance over 30%.
